

# FILCLAIR SERREN INDUSTRY

A lifetime of garden fun

— SPLENDID & ELEGANT —

To grow

To enjoy

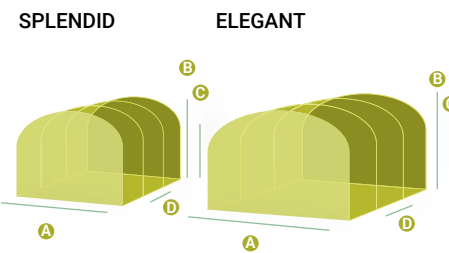

To protect

## Multifunctional do-it yourself greenhouse for the passionate gardener

A gardener wants one thing: a green house that makes gardening a great experience. Therefore the Splendid & Elegant are perfect: Easy to install, on any surface and without foundation. With most tunnels the curvature starts from the ground, this is not the case for the Splendid & Elegant. The side walls are almost perpendicular so you can easily use the entire surface of the ground while standing upright. So no more painful backs because of constant crouching, but a free space to rave to the earth with your fingers.

## Dimensions

### SPLENDID

- width: 8' 22" (3 m) **A**
- height: 6' 7" (2 m) **B**

## strong points

### Tubular construction

Galvanized inside & outside.  
Easy to build

### Easy access

Always comes with 2 wide doors for easy accessibility.

### Superb ventilation

The 2 wide doors insure a good ventilation

### Easy to move

A Splendid with 12'33" in length weighs about 220 pounds

### Ground anchors

With the spiral ground anchoring, the tunnel is held securely in place

### Straight sides

Equipped with straight side walls for optimum use of the ground surface

## unique reinforced foil

Filclair is known for the production of our reinforced PE foil for polytunnels. Many have tried to copy us, but no one has ever equalled the quality of our foil. This reinforced foil is only made of noble materials, making it supple, but also sturdy, wear resistant, insulating, UV and weatherproof. In the event of damage, the foil does not tear further and the damage remains very local. Our reinforced foil can last up to 7-10 years, in contrast to 2 years for other foils on the market. If you choose a Filclair tunnel, you will choose a professional quality foil that is the only one in the market with a 4 year degressive warranty.

## the FILCLAIR warranty

Filclair develops and produces all offered systems and options itself. You choose a brand that stands for specialization, quality and a lifetime support services. We keep all possible spare or additional parts available for your 'Filclair' greenhouse. Once a Filclair customer, always a Filclair customer
